THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children unto the third and fourth generation; indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." ... Scrofula produces ... Consumption; in the glands, swellings ...; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. ... Purify the blood, and these ... leave you. ... have scrofulous ... the most effectual antidote ... has discovered for ...

Something About Japan

The re-admission of foreigners into Japan is again brewing trouble, and working a revolution which may demand the action of America and European powers. Japan has ever been loth to admit to her country foreigners, and the visits of strangers seem to be always attended with internal disorder. In the sixteenth century, the Portuguese were admitted, and made many converts to Christianity; and in the seventeenth century, the Dutch were favorably received. But the Tycoon, suspecting revolutionary designs on the part of Christian missionaries, issued a decree for their banishment, which was strongly resisted, and following persecutions resulted in insurrections by the native Christians, and attempts to revolutionize the government, which ended in a total defeat and banishment of the Christians. Then were adopted rules of non-intercourse, which held good until the last few years. But now that foreigners are again admitted to the soil of Japan, this insurrectionary spirit has been revived, several demonstrations having taken active shape, but been subdued. In ancient days the Mikado was supreme ruler, but in the thirteenth century his power decayed, and was transferred to a Military Commander in Chief, designated as the Tycoon, and the Mikado remained in mysterious privacy. The office of Tycoon, or lay Emperor, became hereditary, and the power of the Tycoon was made subject great nobles who were conspiring against the Mikado, or spiritual Emperor, then in a state of strictest seclusion. To effect this, the number of nobles was increased, and their wealth reduced by dividing the estate. Quiet was restored, and reigned for two centuries, until, as before mentioned, the reception of the Portuguese, and the insurrections resulting from conversions to Christianity. We are now advised of new troubles of a similar nature, and also of the important fact, that the present Tycoon has abdicated and enchered his enemies by restoring the temporal sovereignty of the Mikado. This may lead to civil war, but it is an earnest that, by the consolidation of the Central Government, it is the intention to act in good faith with the powers that Government has formed treaties with, and to hold sacred all obligations to foreign nations. The new Government is now preparing to meet and conquer all insurrectionary movements. The present Emperor is a mere boy—so the real power is lodged in an imperial Cabinet and Council, three of his officers comprising a Board of Regency, and one of the Board his personal [illegible]. This change of Government is regarded as favorable by foreign residents there. For the first time in the history of Japan a Consul has been appointed, to reside in San Francisco. Hon. R. B. Van Valkenberg, United States Minister, resident at Jeddo, has forwarded to Charles W. Brooks, Commercial agent for Japan, a commission from the Japanese Government to act as Consul in San Francisco. The original document is written in the Japanese language, and signed by the Minister of Foreign Affairs, Ogasawari Iki no Kami, with instructions from the Gorogio, or Council of State, consisting of seven princes of the Empire of Japan, which is the governing power of Japan since the abdication of the Tycoon. A translation of this letter of instructions states in substance: "As the United States was the first to conclude a treaty with Japan, opening that country to foreign trade, it is eminently proper that the first foreign representative should be to that country. As San Francisco is the city of America nearest Japan, with which they have the most frequent intercourse, and since the establishment of the mail steamers between San Francisco and Yokohama, it is expected that the trade and friendship will increase between the two powers, and largely augment the travel of Japanese to America, they therefore judge best to create a Consulship at San Francisco, and appoint Charles W. Brooks to the office."

The London Rothschild—How He Made his Money—His Business Maxims.

[Extract of a letter from Sir Thomas Fowell Buxton to Miss Buxton.]

DEVONSHIRE STREET, Feb. 14, 1834.

We yesterday dined at the Ham House, to meet the Rothschilds, and very amusing it was. He (Rothschild) told us his life and adventures. He was the third son of the Banker at Frankfort. "There was not," said he "room enough for us all in the city." I dealt in English goods. One great trader came there who had the market to himself; he was quite the great man, and did us a favor if he sold us goods. Somehow I offended him, and he refused to show me his patterns. This was one Tuesday. I said to my father, "I will go to England." I could speak nothing but German. On Thursday I started. The nearer I got to England the cheaper goods were. As soon as I got to Manchester I laid out all my money, things were so cheap; and made good profit. I soon found that there were three profits—on the raw material, the dyeing and the manufacturing. I said to the manufacturer, "I will supply you with material and dye, and you supply me with manufactured goods." So I got three profits instead of one, and I could sell goods cheaper than anybody. In a short time I made my £20,000 into £60,000. My success all turned on one maxim. I said I can do what another man can, and so I am a match for the man with the patterns, and all the rest of them! Another advantage I had, I was an off-hand man; I made a bargain at once. When I was settled in London, the East India Company had £800,000 in gold to sell. I went to the sale and bought it all. I knew the Duke of Wellington must have it for the pay of his army on the Peninsula; I had bought a great many of his bills at a discount. The Government sent for me and said they must have it. When they got it they did not know how to get it to Portugal. I undertook all that, and I sent it through France and that was the best business I ever did. Another maxim on which he seemed to place great reliance was never to have anything to do with an unlucky place or an unlucky man. "I have seen," said he, "many clever men, very clever men, who had not shoes to their feet! I never act with them. Their advice sounds very well, but fate is against them; they cannot get on themselves; and if they cannot do good to themselves, how can they do good to me?" By aid of these maxims he has acquired three millions of money.

"I hope," said ——, "that your children are not too fond of money and business to the exclusion of more important things. I am sure you would not wish that." Rothschild: "I am sure I should wish that. I wish them to give mind and soul, and heart and body, and everything to business. This is the way to be happy. It requires a great deal of caution to make a large fortune, and when you have got it, it requires ten times as much wit to keep it. If I were to listen to all the projects proposed to me, I should ruin myself very soon." "Stick to one business, young man," said he to Edward, "stick to your brewery, and you may be the great brewer of London. Be a brewer, and a banker, and a merchant, and a manufacturer, and you will soon be in the *Gazette*. One of my neighbors is a very ill-tempered man; he tries to vex me, and has built a large place for swine close to my walk. So when I go out I hear first, grunt, grunt, squeak, but this does me no harm; I am always in good humor. Sometimes, to amuse myself, I give a beggar a guinea. He thinks it is a mistake, and for fear I should find it out, off he runs as hard as he can. I advise you to give a beggar a guinea sometimes; it is very amusing."

Mankind never fails to appreciate him who has at once the power and disposition to serve them, in whatever sphere of usefulness or honor he may elect. Just in proportion to his power and willingness to serve will he be used. It matters not whether he makes bad poetry or bad bargains, society has no use for such, and the unfortunate author of either is left in merited obscurity.

One of the English comic journals suggests names for several new novels. To the author of "Cometh up as a Flower," it recommends "Goeth down like an Oyster," to the author of "More than a Match," it advises a work on "Less than a Lucifer;" and "Never Flirt" it regards as a proper title for a sequel to "Never Court."

In a recent number of *Punch* there occurs a joke which (for a wonder) is altogether too good to be true. A little girl and her mamma are in the drawing room, a nurse just entering. Nurse—"Did you ring, mam?" Naughty little girl—"No, I rang. Take mamma away, please. She's very cross and disagreeable.

SPITTING UPON THE "CONSERVATIVES."—The New York *Day-Book*, in behalf of the [illegible] element of its party, spits contempt upon the so-called "Conservatives" in the following [illegible]:

"There is a class of old, effete, [illegible] political "Conservatives," and still [illegible] of milk-and-water, namby-pamby, [illegible] politicians among us, whose sole idea of [illegible] consists in getting just as close as possible to [illegible] opponents, and then to trust to [illegible] their side a "certain Conservative" [illegible] may get frightened at the "Radical" [illegible] and cast its vote for the "Democratic" [illegible]. The French lost two men killed and [illegible] wounded; while the loss of the Papal [illegible] was small. On the side of Garibaldi six [illegible] were killed outright, with the [illegible] wounded. Democratic Solicitude about Gen. Grant.

The Confederate Democracy who used to speak of General Grant as the "Federal butcher," and [illegible] tell him to "get back to his tan-yard," are in quite as much fear of him now as they were when he was drawing his lines about the doomed [illegible] of the Confederacy. They disparage him now as they disparaged him then; but this is the way they have of trying to dispel their [illegible]. [illegible] their present belief that he is not a [illegible] to be President of the United States; and more than that, they don't believe he would accept the nomination if it were offered him. [illegible] that, they don't believe he would accept it from the Union Republican party, because that [illegible] is too "Radical" to suit his views. The [illegible] organ at this place takes the trouble to [illegible] these things almost every week. [illegible] it declares, has always been known as [illegible] in his opinions; he opposed [illegible] and threatened to resign because the [illegible] policy was persisted in; and on divers occasions he has shown that his views are not in accord with those of [illegible] who are urging him for President. In long, [illegible] and laborious attempts to define Grant's position, invariably close with the declaration that he and his opinions are alike of no [illegible]. The people care not for these military [illegible], will have nothing to do with any man who owes his greatness to his country's [illegible]. This is the course which the Democratic [illegible] in reference to General Grant. They take an infinite deal of pains to [illegible] that he is not a "Radical," and then declare [illegible] what he is. This profession [illegible] is fear of the man as completely as if they were to confess it openly. The attempt to prove that he does not agree with the [illegible] party is a feeble and futile endeavor to [illegible] his nomination, while the disparagement with which he is spoken of, is a manifestation of conscious weakness and inability to make [illegible] show of opposition to his election.

[illegible] individuals don't see how Grant can be claimed by the "Radicals." Nor do they see [illegible] could consent to be the "Radical" [illegible]. Of course not. They are not [illegible], they are not required, to [illegible] enough in the Union party to be able to [illegible] its candidate for the Chief Magistracy. Furthermore, they have a little job of their own of the same kind on hand, and perhaps it might be as well for them to devote their [illegible] to their own party affairs. They don't [illegible] to say about any particular candidate [illegible] probably because they think it makes [illegible] who shall obtain the honor of a [illegible]. Still, would it not be well for those who are giving themselves so much trouble by indulging in conjectures as to who the "Radicals" [illegible] will be, to endeavor to remove [illegible] various difficulties which beset their own [illegible] in regard to the candidacy? Will they [illegible] with his greenback policy, or Seymour with his bonds? Will they take Vallandigham as a representative of the "Peace Democracy" of the war era, or Hancock as a "lawyial" [illegible] sworn to the support of the [illegible] Abolition war?" Will they declare [illegible], negro suffrage *in toto*, as the [illegible] have done, or will they favor [illegible] certain conditions in accordance with the [illegible] of the New Hampshire and New York [illegible]? Will they declare in their [illegible] platform, they did as California and Pennsylvania, that the General Government is the [illegible] of the country, or will they renew [illegible] the resolutions of '98, after the [illegible] of their party brethren in Kentucky and [illegible]? After they settle these little matters it will be a better time for them to devote their talents to the work of finding a candidate, and setting the policy of the "Radicals."

[illegible] Convention may not nominate [illegible], but at present there is every indication that it will. It is eminently fit that the man who so directed the efforts of the loyal people of the country as to bring the great struggle for our national existence to a triumphant close, should, at this time, when a concerted effort is making among all the enemies of the country to reverse the results of the victory, be chosen to head the [illegible] movement to defeat their design. As the loyal people of the country are called on to save what they fought for, there is a peculiar propriety in their [illegible] for a leader the man who, by virtue of [illegible], guided by his own patriotic earnestness and military genius, represented during the [illegible] the armed force of the nation striking for the majesty of the Government. When [illegible] of the loyal people of the country we use the term in the same sense in which it is used by Grant himself in one of his letters to Johnson: —"I mean," says he, "those who supported the Government during the great rebellion." The Democratic party is composed of the same materials of which it was composed then; the same [illegible] are at its head, and the same spirit animates it. The object of the "loyal people of the country" is the same as during the war; it is to put rebels down, to restore the Union on a safe basis, and to keep the country in hands which are worthy to guide it. The prospects are that reconstruction will soon be finished, and the Union restored in accordance with the principles held by the Union party during the war.

The Salem Union Club has elected officers as follows: President—S. T. Church; Vice Presidents—J. H. Moores, M. P. Berry, W. A. McPherson; Secretary—H. Y. Thompson; Rec. Secretary—Geo. P. Holman; Treasurer—J. J. Murphy.

The *Sentinel* says that much stock is perishing in Jackson county.

Spirit of the State Press.

The past two weeks has been a difficult season for newspapers. Some of the interior journals have failed to appear, others have come out on half-sheets, and most of them, in sympathy with the pinching weather, have failed to present their usual variety of interesting articles. There are occasions when it is utterly impossible to obtain the usual variety for a newspaper, and readers must not expect impossibilities.

Owing to the non-appearance of the Albany *Democrat*, we are deprived of the usual weekly discourse of two or three columns on the great subject of "negro suffrage." No other paper can treat this subject quite so profoundly as the *Democrat*. What the *Herald* is in ability to treat the resolutions of '98, the *Democrat* is in ability to deal with this subject. In the absence of the usual disquisition from the *Democrat*, we are remitted to the *Tocsin*, the new Salem paper, for this sort of pabulum. Though the *Tocsin's* is a decidedly inferior article, yet as the best we can get, we present the following:

> To the youth in whose veins the warm blood of patriotism is flowing, they appeal to you who know no beaten track but who vote as your conscience commands, the Democratic party appeals to save this country from the reign of terror of which every gale that blows from the South tells some new tale of horror and of bloodshed. Between your own people and a strange people, between a race of freemen and a race of slaves we ask you to decide.

Now we opine that if the gales blowing from the South told such tales of horror, the Democratic papers would not be slow about giving a detailed history of every affair of the kind. Of course this tumid talk about "a reign of terror" in the South is merely nonsense. There has been a degree of security for life and property in that section since the Congressional policy went into operation, which has not been witnessed there for years. There has been no "war of races" since rebel massacres were stopped a year ago. The last remark in the extract from the *Tocsin* shows that that paper, like its party contemporaries, believes that a terrible contest for superiority is in progress between its party and the negro race, and that it has the most gloomy apprehensions about the result.

The *Courier* this week inquires, "Are the Rads. Crazy?" and proceeds thereupon to present the world with a piece of writing worthy of the Professor of "African Anatomy and Ethiopian Ethnology." But the *Guard*, the Democratic paper at Eugene, evidently thinks it possible that the Professor is the "crazy" individual. The *Courier* having said last week that the Democratic choice for President "would rest between Gen. Sherman, Gen. Hancock, and our present worthy President," the *Guard* replies in this fashion:

> It is barely possible that the editor is in earnest, and if so, we would suggest that he pull down his motto and substitute something more congenial to his political hybridism; also, that he quit quoting the white Douglas, and treat his readers to the profound mouthing of the *black*.

The *Guard* should be kind to Jasper; it should recollect that he is a babe in Democracy, that he has weaknesses, and that he should be corrected by gentle admonition rather than by severe reproof.

The *Chronicle* editor pretends to have been told that somebody has threatened to "cane" him; and the said editor, if we may judge from a remark in his paper, is striding about Salem, (when he can maintain his perpendicular to a sufficient extent) begging somebody to tread on his coat tail so that he can take something; perhaps satisfaction.

The *Record* has the following paragraph:

> The *Tocsin* claims that the Union party has not a common ground of faith, but are divided in principle, hunting for a leader who can unite them and secure victory. Coming from the conglomerate Democracy, that idea is peculiarly good! Why, there is not a principle of active quality pertaining to the party. It don't want treason to be considered disreputable; it objects to paying the national debt, except with paper promises; it is sorry emancipation is accomplished; it refuses to let the negro be counted anywhere, except in the ratio of representation to increase the number of Democratic Congressmen, and if it has an active principle it is to scramble after the spoils. The Union party has a leader who neither is weak nor fanatical; who conquered rebellion and has to conquer Democracy to complete his career, and become next President. It is Democracy that don't know where to turn for a leader, and has no basis of principle.

In speaking of the fact that the Union party of this State has lost the services of sundry individuals who have gone over to the opposition because the Union party would not give them office, the *Record* says:

> This reminds us of one of Nesmith's stories. He says, "when the canvass was over and Lincoln elected, the brass-mounted Republicans met at Salem to arrange about the offices." Things didn't go exactly smooth, and E. L. Applegate went over into Polk to see what the newly elected Senator, Nesmith, had to say. Being asked where the difficulty lay, he replied, "Why, Nes., the principal point of difficulty seems to exist in the fact that this country is so peculiarly constructed that there are not offices enough to satisfy the people." That was so, no doubt, and the gallant Democrats who went charging into the Union ranks to secure office, very naturally didn't get any, and very naturally got a disgust instead, and went back where they belonged.

The Roseburg *Ensign* alludes to the coming political contest and the preparations which are making therefor in the Southern part of the State, as follows:

> There is, we are happy to see, a very lively awakening among Union men; clubs are being formed in different localities, and by a mutual interchange of thought and hearty co-operation between these clubs, it will not be difficult to produce a profound sentiment of harmony, and preserve unity in the party on all questions, and especially on local questions before the Spring Conventions. This is what we hope to see done without delay. In every precinct where such clubs are not already organized, it may be done, and from time to time a correspondence and comparison of ideas and feelings with each other among these minor organizations, the great object desired, a complete harmony of action on all paramount issues, will be attained; so that the full force of the party vote may be relied on in the coming contest.

The subjoined paragraph is from the *Sentinel*:

> An exchange charges that Radicalism has set "law at naught, and overridden cherished customs." We presume he refers to the "law" that authorized the scourging of women and the sale of helpless victims at the auction block, and to the "cherished custom" of keeping female slaves in a state of concubinage. The fellow ought to go to Delaware, where the lash is still in the hands of the chivalry.

The Albany *Journal* has the following article on General Hancock:

> It is asserted by the Eastern journals that Gen. Hancock has put himself in active training for the Copperhead nomination for the Presidency. We are sorry to hear this news of so meritorious an officer, but from his antecedents we fear there is some foundation for the rumor. At the Presidential election in 1860, we saw him offer his vote for Breckinridge, at Los Angeles, Cal., when he contended that being only a captain in the Q. M. department, and not of the regular army, he was only a civilian by law and had a right to vote; but the judges of the election ruled otherwise and he had to retire. He always affiliated socially and politically with the rebel element previous to the war; but when the rebellion commenced, he manfully and earnestly came out for the cause of his country before he left California; and to such an extent did he draw rebel wrath upon his head, that a plot was concocted among a number of the Secession officers then gathered at Los Angeles, on their way to the South with the rebel Gen. A. Sydney Johnson, to draw him into a duel for the purpose of taking his life. We saw him grossly insulted by them on two or three occasions, but he declined to send the coveted challenge, only promising to satisfy them on another field, where he supposed they were bound; and he kept his word, proving himself one of the most brilliant soldiers of the war. His wife's relations were all Secessionists of the worst stripe, and possessed of immense wealth, at St. Louis, and it is likely they have reconstructed him. He is a native of Pennsylvania, and is about forty-two years of age.

"Well, Jim, how did you make it down South?" "First rate; made plenty of money." "What did you do with it?" "Laid it out in houses and lots." "Where?" "Every place I have been where there were any." "What kind of houses and lots?" "Coffee *houses* and *lots* of whisky."

Congressional.

WASHINGTON, Jan. 30.—In the House of Representatives, Schofield rising to a question of privilege, called attention to a statement in the evening papers that one of the Supreme Judges in a mixed private gathering of gentlemen had spoken freely of the reconstruction laws, and declared in the most positive terms that all those laws were unconstitutional and the Court would be sure to pronounce them so. [illegible] his friends suggested that it would be [illegible] speaking so positive. The Judge repeated [illegible] more emphatic manner. Schofield offered a resolution directing the Judiciary committee to inquire into the truth of these declarations of the daily newspapers and report whether the facts constituting such a misdemeanor requires the House to present articles of impeachment against such justice. Several members wanted the name of the Judge inserted in the resolution. Blair said in one paper the name of Stephen J. Field appeared. Johnson said if this be a blow at Judge Field he wanted the name inserted. Schofield suggested that the gentleman from California move to amend the resolution by inserting the name of Judge Field. Johnson declined to avail himself of the opportunity. Higby declared that he had been familiar with Judge Field during the rebellion and no man was truer to the Union. The resolution finally passed under the operation of the previous question.

NATIONAL COLLEGE

BUSINESS AND COMMERCE,

Corner of Alder and Front Streets,
PORTLAND, OREGON.

FROM T. H. GATCH, PRINCIPAL OF THE PORTLAND ACADEMY AND FEMALE SEMINARY:

"Having lately had an opportunity of becoming somewhat acquainted with the workings of this Institution, I unhesitatingly recommend it to all who wish to secure a practical business education in the shortest time and with the least expense. The idea of going from Oregon to California to attend a Commercial School is simply absurd.

"It is my opinion that pupils instructed by Messrs. LAUDEN and DeFRANCE receive greater attention than those of any other Commercial College on the coast, and this I say without wishing to detract from the usefulness of schools I have visited in San Francisco."

From the Dalles.—Mr. Ad. Edgar, the carrier of the mails between Dalles and Canyon City, arrived overland from the Dalles, yesterday afternoon, with a saddle train of ten horses, bringing seven passengers. He left the Dalles last Tuesday morning, and was therefore three and a half days in making the trip. He reports the trail not in bad condition, and the time made would indicate as much. When he left, the weather at the Dalles was extreme in cold. Sunday night, the thermometer sunk to eight degrees below zero—the coldest weather thus far of the winter. The snow covers all of the country above the Dalles to the depth of about sixteen inches. Feed is scarce and stock is perishing in great numbers. Sheep have been dying since two weeks ago. Of one drove on John Days river, which then numbered seven hundred, only about two hundred and fifty remained alive last Sunday night. Mr. Edgar thinks that, upon an average, half the sheep in Wasco county have already died from the severity of the weather. The loss of sheep and cattle must prove immense. Messrs. Cann and Blakeny were met at noon Tuesday within twelve miles of the Dalles, and would arrive, easily, the same evening. The mails from Canyon City and Boise arrive regularly at the Dalles on sleighs. Several parties from Portland had arrived at the Dalles by the trail, some of whom had gone on to the interior, land travel being unimpeded. There was no news of importance from Boise or any point in Idaho. The roads are in splendid condition for either rapid travel or freighting. Daily trips are made with sleighs between Dalles and Umatilla. In the direction of Canyon City and beyond that point stock raisers were better prepared for winter and stock was getting along finely, though the weather is cold and snows deep. Game is abundant along the Canyon road: One man on Cherry Creek killed eight deer in one day. One or two hunters had frozen their feet, though not seriously. At Canyon City, the coldest weather experienced was twelve degrees below zero. At Olive Creek, the snow is over nine feet deep. It is also very [illegible] City and Ft. Harney.

[illegible]—[illegible] the filing in the County Court of the petition for the reduction of rates of ferriage at this city, [illegible] feel such reduction has been put in [illegible] formidable list of signatures. The ferry boat here is a first class, and withal an expensive [illegible], and the public [illegible] will not therefore be [illegible] by [illegible] the rates of [illegible]. Such a reduction might operate to force the withdrawal of the boat and the substitution of a less serviceable one.

HELMBOLD'S EXTRACT BUCHU and Improved Rose Wash cures secret and delicate disorders in all their stages, at little expense, little or no change in diet, no inconvenience and no exposure. It is pleasant in taste and odor, immediate in its action and free from all injurious properties.

DR. C. W. COOL,

DENTIST.

THOSE WHO DESIRE FIRST-CLASS DENTAL SERVICES might do well to give him a call. He is making a NEW AND IMPROVED VULCANITE PLATE. The nature of his improvement consists in lining the entire concave surface with fine gold; it makes the plate twice as strong and one-third times thinner than the common vulcanite plate. It also prevents the acids of the mouth from roughing the plate, and from turning it black, which is a common occurrence. One half of the common vulcanite plates turn black after being in use a short time, particularly where tobacco is used for smoking. His new style of plate admits of a very fine finish on the concave or palate surface. His office is the only place where such work can be had. The improvement is his own invention, for which he has received, December 31, 1867, a patent from the United States Patent Office. He has been making this style of work for the last two and a half years, and has specimens of the work which can be seen at his office. This work has given satisfaction in every case.

HELMBOLD'S EXTRACT BUCHU gives health and vigor to the frame and bloom to the pallid cheek. Debility is accompanied by many alarming symptoms, and if no treatment is submitted to, consumption, insanity, or epileptic fits ensue.

Martin Luther once thought he saw the devil in his chamber, and threw an inkstand at his head. Had they had in those days AYER'S PILLS to exorcise all the devils that come from a disordered stomach, his laughable fright would not have become a matter of history.

HELMBOLD'S CONCENTRATED EXTRACT BUCHU
Is the Great Diuretic.
HELMBOLD'S CONCENTRATED EXTRACT SARSAPARILLA
Is the Great Blood Purifier.
Both are prepared according to rules of Pharmacy and Chemistry, and are the most active that can be made.

DR. HOSTETTER'S STOMACH BITTERS should be in the possession of everybody in the mining region. As a preventive of various dangerous diseases to which the gold seeker is liable, it has no superior. While it is quite palatable even as a beverage, it is speedy and powerful in its effects upon the system. In all cases of diarrhea, dysentery and the prevailing fevers consequent upon exposure, the Bitters will be found invaluable as a corrective. No man should enter upon the exposed camp life of a miner without being provided with Hostetter's preventive of stomach disease, nor should any of those who are now engaged in the occupation, fail to have recourse to the Bitters.—Sold by all druggists and dealers everywhere.

PERRY DAVIS' VEGETABLE PAIN KILLER.

THE UNIVERSAL REMEDY FOR INTERNAL AND EXTERNAL COMPLAINTS!

At this period there are but few of the human race unacquainted with the merits of the Pain Killer; but while some extol it as a liniment, they know but little of its power in easing pain when taken internally, while others use it internally with great success, but are equally ignorant of its healing virtues when applied externally. We therefore wish to say to all that it is equally successful whether used internally or externally, and it stands alone, unrivalled by all the great catalogue of Family Medicines, and its sale is universal and immense. The demand for it from India and other foreign countries is equal to the demand at home, and it has become known in these far off places by its merits.

HELMBOLD'S FLUID EXTRACT BUCHU is pleasant in taste and odor, free from all injurious properties, and immediate in its action.

Just Cause for being Alarmed.—When a Cough has been running for a long time, and you begin to feel a pain setting in upon your lungs, attended with tightness across the chest, it is high time that you should awaken to the danger of your disease, which is fast running into Consumption. Now, before it is too late, use ALLEN'S LUNG BALSAM, which will cure the disease, and all will be well with you. For sale by the Dealers in Family Medicines generally.

STEAM POWER, NOS. 625 AND 627 FRONT ST,

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some [illegible], and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the [illegible], the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

HIRAM SMITH'S

Ophthalmic Panacea!

IN BRINGING THE ABOVE-NAMED NEW REMEDY to the notice of the Public, the Proprietor begs to state a few facts in relation to it, as follows:

It originated in Prussia, where the science of Medicine is so thoroughly taught and practised, but owing to the poverty of its discoverer its wonderful properties were not known beyond the limited circle of his acquaintance, in which, however, it proved itself absolutely infallible in eradicating disease from the eyes.

He immigrated to this country, bringing his discovery with him, but seems to have been indifferent as to the propriety of giving it general and wide-spread circulation, and, as previously in his native country, seemed only desirous of using it among his friends and neighbors.

The present proprietor was one of those neighbors, and for many years was a witness to its wonderful efficacy, and, after ineffectual efforts to persuade the inventor to more widely disseminate the knowledge of its virtues, finally became himself the possessor of the secret of its preparation.

And now, while he does not deny that he hopes and expects to make money by its sale, he must yet lay claim to a desire to benefit his fellows by presenting to them a remedy *which does and will cure where medical science* and all experience have failed.

He wishes it to be understood that it will cure *all* diseases of the eye, whether of recent or long standing; but its greatest power is exhibited when it is applied to old Chronic Cases of long standing, which have resisted every other attempt to cure them, and which have been given up as hopeless and past being cured or relieved.

He asks those afflicted in this way to give it a trial, and so confident is he of its success that he instructs all his agents TO REFUND THE MONEY IF IT FAILS TO CURE.

It has, within the past year, cured cases of GRANULATED LIDS, INFLAMMATION, &c., of FIVE, SIX, NINE, FIFTEEN and SEVENTEEN YEARS STANDING, evidence of which fact is furnished in the testimony of the following persons living at and in the neighborhood of Harrisburg, Linn county.

ALEXANDER L. WALKER was cured of inflamed eyes, of nine years standing. Had been treated by eminent physicians during all that time without effect.

Mrs. MONTGOMERY, of Harrisburg, had inflamed eyes for over two years. For one year they were so bad that she could not work. Was finally completely cured by the Ophthalmic Panacea.

E. B. MOORE, of the firm of Moore, Garst & Baber, of Harrisburg, had granulated lids for six years.

NATHANIEL HALL, of Clackamas county, had inflamed eyes—a bad case—for over fifteen years.

ROBERT RAMPEY and W. D. PORTER, of Harrisburg; JOHN M. HOLLOWAY, of Linn County; G. R. WARD, of Lane County, were all afflicted, more or less severely, with diseased eyes, and were cured by the Ophthalmic Panacea.

All the above named persons have given lengthy testimonials to the facts as above stated, which may be seen at the proprietor's office in Harrisburg.

WE, THE UNDERSIGNED, HAVING PURchased the "UNION BOOK & JOB PRINTING OFFICE," of T. F. McElroy, propose to issue a Weekly Newspaper at Olympia, W. T., on or about the 1st of December next, to be called THE OLYMPIA TRANSCRIPT.

The paper will be devoted to the Agricultural, Mechanical, Commercial, Mineral, Moral and Political Interests of the whole Territory.

CARD.

DR. BARLOW J. SMITH'S WATER CURE AND Phrenological Institute, 627 Sacramento Street, San Francisco. This is the only Regular Water Cure in Francisco, where all curable diseases are treated without drugs. Dr. Smith was the first to establish a water cure on this coast, based upon the theory and practice of the New York Hydropathic College.

We have a truly healthful boarding place for men, women and children, and our prices are moderate.

The Phrenological organs plainly indicate the diseases to which any person, male or female, is predisposed.

Put this card in your hat, and when you come to San Francisco, call on Dr. Smith. He will give you consultation and a phrenological examination in regard to health. It will cost you nothing and may save you months and years of ill health and "bad luck."

Dr. Smith gives free lectures to gentlemen every Friday evening, on subjects pertaining to health, at his Phrenological Hall, 627 Sacramento Street.

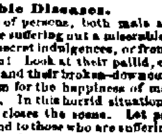
TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary.



616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Disease (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies, see that they are cured for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

DR. J. C. YOUNG,

Medical and Surgical

INSTITUTE.

**** CONSULTATION, IN ALL CASES, FREE!*

**** CURES GUARANTEED, OR NO PAY REQUIRED.*

**** IN ALL CASES WHERE CONFIDENCE IS REQUIRED THE UTMOST SECRESY MAINTAINED.*

The above rules, established by Dr. J. C. Young in 1850, and which have done so much to secure the reputation of this Institute, are still adhered to, affording those in need of medical aid, the certainty of cure and the utmost confidence.

There is nothing of so great importance to the sick as to know where to find a physician whose skill and humanity give assurance of proper and delicate treatment. The Doctor would respectfully call the attention of those of both sexes who are suffering or in trouble to the invariable success that has marked the career of the Institute in the seventeen years of its existence.

It is unnecessary in this connection to enumerate all the complaints treated at the Institute, but the Doctor feels it his duty to call especial attention to that terrible scourge,

SEMINAL WEAKNESS,

That is sapping with its insidiousness the very life of its victims; in the treatment and cure of which the Institute has earned so enviable a reputation.

READ! READ!

I am aware that by dwelling upon so uninviting a subject as the decay of manly vigor through the loss of the vital principle of life, the ignorant may asperse my motive; but the desire to point out to those who [illegible], languish and decay, the true cause of their affliction, is too great an incentive to be forced into abeyance. How extended the terrible disease of Seminal Weakness is, no one but the practical specialist who devotes his time to its treatment can tell; but its presence can be detected by the most inexperienced by noting the following symptoms; Weakness of the back and limbs; [illegible] feelings, loss of muscular power, nervousness, irritability; cold feet or hands, accompanied by hot head; symptoms of consumption; short breath, flushings of the face; aversion to society; confusion of the mind; loss of memory; nightly emissions; colorless; slight discharges upon the least excitement; trembling; palpitation of the heart; irregular appetite; variable temper, etc.

YOUNG MAN, if you experience any of the various symptoms enumerated above, pause to consider. The present is the golden moment in which you may secure health and happiness. You may feel strong now, but if you have ever practiced the vice of self-abuse even in the slightest degree, you have the seeds of weakness in your system, and their [illegible] will, sooner or later, dash the fair edifice of your strength to the ground, leaving you a helpless, abject [illegible] It is not a disease that declares itself at once. Therein lies its greatest danger; for while the patient is being treated for some affection of the Heart, Lungs, Brain, or Digestive functions, he sinks into a general debility that soon adds him to the list of the victims of the terrible disease—Seminal Weakness.

See in the bent form and languishing steps, the poor victim of the fascinating vice! Mark the course of the destructive complaint in the hollow cheek and dull eye!

Drowsiness is one of the premonitory symptoms. At first it is easily shaken off, but it grows eventually into a great disinclination to pursue his regular business. The mind [illegible], and restless [illegible] depressed [illegible]

It is the nature of the complaint to assume sudden changes that leave the poor victim but little hope of recovery. In a single instant it may wither your fond hopes and blast your honest aspirations.

Marriage is sought by a natural impulse as a hope of relief. This is an error of the first magnitude, for the apathy, unprepared for the exigencies of the occasion, suddenly fails, and he finds himself in a deplorable condition, from which there is but the slightest hope of recovery. Or if the marriage should result in offspring, they are puny, distorted, decrepid, and degenerate. This is applicable to both sexes, whether married or single, and to all times of life.

Do not delay if you feel any of the symptoms of the terrible complaint, or if your acts have been such as to lead to them, but by instant application secure to yourself the only hope of health and happiness. The Doctor uses no mercury or other deleterious drugs. Cures, when taken in time, always guaranteed, and full and proper vigor restored.

The afflicted are assured of every confidence.

PERSONS AFFLICTED WITH VENEREAL.

During the seventeen years since the establishment of the Institute, the number of cases of Venereal that have been treated, show a record unequaled by any [illegible] in the world, and the success that has invariably marked the course of treatment,

Without Mercury or other Deleterious Drugs,

Shows conclusively the use of them to be not only uncalled for, but actually dangerous, for it is a thoroughly established medical principle that those poisonous drugs, by entering the blood, ruin the constitution and destroy life.

The Doctor effects a cure in recent cases, in a few days, and finds no difficulty in curing those of long duration, without submitting the patient to such treatment as will draw upon him the slightest suspicion, or oblige him to neglect his business, whether in-doors or without. The diet need not be changed. Cures always guaranteed, or no pay required.

IMPORTANT TO FEMALES.

When a female is in trouble or afflicted with disease, and requires medical or surgical assistance, the inquiry should be, "Where is there a physician competent to administer relief, and whose respectable standing in society will recommend him to the confidence of the community?" The Doctor, understanding how imperatively necessary these requirements are, feels called upon to interpose, and by calling the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice —both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous or designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who can feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed—consultation by letter or otherwise, free. Cures guaranteed in all weakness and trouble incidental to the sex. Private apartments are provided, when desired, where can be had all the advantages of unremitted attention of the Doctor, and the most skillful and and faithful nurses.

TO CORRESPONDENTS.—Persons, either male or female, residing in the interior, are often deterred from visiting the Doctor because they cannot spare the time, nor incur the expense of a visit to the city. To such he would say that a plain statement of the symptoms and information bearing upon the complaint, will enable him to prescribe for them so that they can be cured at home. None need have any false delicacy about writing, no matter what the nature of their complaint, as the communication will be seen by no one except the Doctor, and will be treated with the utmost confidence, and either be returned or destroyed.

☞ Consultation Free.

DR. J. C. YOUNG,

Medical and Surgical Institute,
No. 536 Washington Street,
Jan13d1y4p San Francisco, Cal

THE [illegible] call SCROFULA [illegible] in the constitution of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, [illegible] [illegible], St. Anthony's Fire, Salt Rheum, [illegible] tubercular [illegible] in the [illegible] White Swellings, Debility, Dropsy, [illegible] Dyspepsia or Indigestion, [illegible] Syphilitic [illegible] Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.
